

EVERLIT

# Energy Efficiency

For A  
Sustainable  
Future

**13 W T8 LED Light Tube**  
FROSTED / CLEAR

In-house aging facility to ensure the highest reliability of our tubes.

Everlit is one of the first in the world to produce a 13 Watt T8 LED tube with 1800 lumens output. Our T8 tube is able to achieve a high efficacy of light output by utilizing Nichia LED components. With an aluminium heatsink and PCB design we are able to dissipate heat effectively and have a sturdier construction.

Everlit 13 watt T8 tubes is ideal for general lighting applications as it is safe, reliable, and offer a significant energy savings while protecting the environment.

## Technical Specification

13 Watt T8 LED Light Tube

<b>Light Output (Lumens)</b>	1800
<b>Watts</b>	13
<b>Input Voltage</b>	90-240V
<b>Power Factor</b>	> 0.95
<b>Lumens Per Watts (Efficacy)</b>	100
<b>Effective Life Span (L70)</b>	50,000 Hours
<b>Operating Temperature</b>	~ -20°C ~ 40°C
<b>Total Harmonic Distortion (THD)</b>	~ < 15%
<b>Colour Rendering Index (CRI)</b>	> 80

**Available Options**

Clear / Frosted

**Colour Options**

**5000K & 6000K**

Correlated Colour Temperature (CCT)

28mm

1198mm
